FIX

Adhesive mounting

Nexelec

www.nexelec.eu

30 mm

Net weight: 1g

Reference

S002-PRO

Conditioning

Batch of 100

FUNCTIONS

CE and NF certified ⁽¹⁾

Approved installation device specially designed for NEXELEC EN14604 / EN50291 and NF292 certified detectors

Easy assembly

Avoids drilling into walls and ceilings. Replaces screws and plugs

Quick installation

1 minute is all it takes to glue the bracket and fit a detector

Reliable and robust

Laboratory-tested adhesive. Very high peel strength

FEATURES

Double-sided adhesive

Technology: Double-sided viscoelastic acrylic foam

Conditions of use

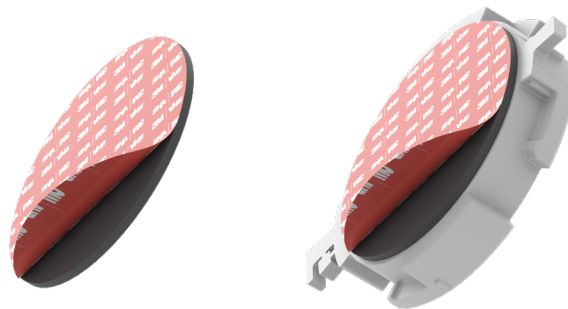

Indoor environment
Temperature: -30°C to +70°C
Humidity: 0% RH to 99% RH (non-condensing)

Mounting ⁽¹⁾

To be used exclusively with NEXELEC BASE and BASE+ detector bases.
Apply only to a smooth, clean surface

Box content

100 adhesive fasteners

⁽¹⁾ Please refer to the «Installation» section of the NEXELEC user manual. AFNOR Certification recommends mounting detectors using screws and plugs.
