REMOTE

Remote control for stand-alone detectors

Nexelec

Controls smoke and carbon monoxide detectors

Remote control of ceiling-mounted detectors

Universal remote control

A single remote control can operate detectors in all homes

Remote control of detector operation

No need for steps to access detectors. Remote control for easy product testing

Warning light visible on remote control

An indicator light immediately signals current detector alarms

Always at hand

Compact remote control for furniture or wall mounting with magnetic holder

Silence function

Stops the alarm and/or puts the detector on standby for a few minutes from the remote control

Locates fire alarms

Identifies the product at the origin of an alarm if several interconnected detectors sound simultaneously

Alert memory

An indicator light flashes on the remote control to let the resident know if the detector has been triggered in his absence

12 mm

45 mm

Net weight: 35 g (including battery and stand)

FUNCTIONS

3-year battery [1]
Replaceable lithium battery. Up to 3 years autonomy

Design
Facilitates acceptance of the device by residents

FEATURES

Conditions of use
Indoor environment
Temperature: -10°C to +50°C
Humidity: 0% RH to 100% RH (non-condensing)

Mounting type
Wall-mounted or free-standing

Box contents
1 product
1 CR2032 battery
1 magnetic holder with adhesive
adhesive 3M

Warranty [2]
2 years

Mostly recyclable product

Certification
UKCA CE

Power supply
Replaceable CR2032 lithium battery

Compatible detector models
Smoke detectors :
ORIGIN / ORIGIN+ / GUARD / GUARD+
Carbon monoxide detectors: AIR / AIR+

[1] The battery is designed for a non-guaranteed life of 3 years: battery life may vary. Please refer to the «Precautions and Limitations» section of the user manual [2] Please refer to the «Warranty» section of the user manual
